When do you say "God Save the Queen" and when "God save the Queen"? A: Whilst it's true that "God Save the Queen" is the proper name for the monarchical anthem, the name of the hymn itself is "Eternal Father, Strong to Save". The "Save" here comes from a Christian theme; and the original (as with much traditional Christian writing) was a request to God to protect his chosen people and, in turn, to protect the nation and its leaders. Nowadays the song is used more with a religious meaning and is usually sung before some invocation or invocation and benediction by the clergy. It's quite possible, therefore, that a clergyman singing it will be using it as a hymn (though, as I've said, it's not usual for it to be used as such) rather than in the way in which it was originally written. However, if the clergy have not omitted this, and you hear the proper name "God Save the Queen" sung, then it will usually be followed by (in a church service) the spoken phrase "with all your heavenly grace and majesty". It's the usual way to end a benediction. All that being the case, I don't think it would be right to refer to "God save the Queen" as "God save the Queen" if it were actually the monarch's name spoken out loud. Collaboration of vascular and hemodynamic factors in the pathogenesis of diabetic foot ulceration. Recent evidence indicates that the successful healing of a diabetic foot ulcer is dependent on the interplay between the site of the wound, neurovascular signals, the availability of oxygen, and mechanisms of tissue repair. These interactive factors are critical in the healing of the skin and subcutaneous tissues of the diabetic foot. This review will focus on the role of vascular and hemodynamic factors, including blood flow and tissue oxygenation, in the healing of the diabetic foot.Halo: The Master Chief Collection Review: A Dark & Silent Warrior
